MYCAMPUSVIEW ACADEMY · ROBOTICS 101

Student activity worksheet

Record your readings, tests and fixes

Name: _____ Class: _____

1. Sensor readings (Lesson 9)

Where is the robot?	Left says	Right says	Correct?
Both sensors over white			
Left sensor over the line			
Right sensor over the line			
Both over the finish line			

My sensors read black as: HIGH / LOW (circle one). So `ON_LINE` = _____

2. Motor tests (Lesson 10)

setMotors(…)	I predict	What happened
`setMotors(150, 150)`		
`setMotors(40, 150)`		
`setMotors(150, 40)`		
`setMotors(-150, -150)`		
`setMotors(0, 0)`		

3. Tuning log (Lesson 12)

Try	BASE_SPEED	TURN_SPEED	Track	Result	Time (s)
1					
2					
3					
4					
5					
6					

4. A problem I fixed (Lesson 13)

What happened:

What I changed:

Did it work?
