WARNING: MAY CAUSE PARENTS TO SAY THANK YOU

Parents track their pizza live. Why not their child's school day?

MyCampusView puts attendance, fees, homework and results on every parent's phone, **in your school's own name and logo**, and gives your office staff their evenings back.

Already have an ERP? Good. Turn to page 3.
Take the 60-second test your current software would rather you skipped.

Page 3 →

SAME SCHOOL · SAME STAFF · LESS CHAOS

Your school day, before and after MyCampusView

Nothing on this page needs new staff or new habits. It is the same day, with the running around taken out.

	BEFORE	AFTER
7:50 AM Attendance	Paper registers. Then phone calls. Then "Ma'am, he was in the washroom."	Marked on the teacher's phone in a minute. Parents of absent children get an alert straight away.
9:30 AM Fee counter	A queue, a receipt book and a cash total that never matches.	Parents pay online or at the counter, receipts go out instantly and dues update live.
11:00 AM A teacher is absent	Staffroom panic and a whiteboard full of arrows.	The substitution board suggests a fair cover for every period, in one tap.
1:30 PM "What's today's homework?"	The fifteenth call of the day to the front office.	Homework, notices and results are already in the parent app, with WhatsApp alerts.
4:30 PM Accounts	Retyping the day's receipts into Tally, line by line.	Day-end collection report, ledgers and a Tally export, with no retyping.
6:00 PM The principal goes home	Without knowing today's numbers until someone sends an Excel file.	A one-message WhatsApp summary of the day arrives on its own.
Exams Report cards	Marks in five Excel files, a typo on page 40 and a reprint the night before PTM.	Marks are entered, checked and approved, and report cards print in your format.

If a food app can tell parents where their dinner is, your school can tell them where their child is.

Parents notice. Fees come in on time, the phone rings less and admissions enquiries hear good things about you.

PERFECT. YOU ALREADY KNOW WHAT ANNOYS YOU.

The 60-second test for your current ERP

Tick every question you can honestly answer “yes” to today. Ask your accountant and a parent too; they will not be shy.

Does your current system…		Tick for yes			
1	Do parents get an alert within minutes when their child is marked absent?	☐	2	Can parents pay fees online and get the receipt instantly, without calling the office?	☐
3	Does the principal get a summary of the day on WhatsApp, without asking anyone?	☐	4	Can your accountant send fee and expense entries to Tally without retyping them?	☐
5	Does the timetable build itself, and suggest substitutes when a teacher is absent?	☐	6	Do marks go through a check-and-approve step before report cards are printed?	☐
7	Is the parent app in your school’s name and logo, rather than the vendor’s?	☐	8	Can parents see the school bus on a live map?	☐
9	Can you see who changed a fee, a concession or a mark, and when?	☐	10	Can you export all of your data, any time, without asking the vendor?	☐

10 / 10 🏆
Honestly, stay where you are. And please send us their number.

6 – 9 😉
You are paying for an ERP and still doing the rest by hand, on WhatsApp and in Excel.

Under 6 🚨
Your staff are working for the software. Let’s talk this week.

Switching sounds painful. We made it boring. Live in 4–6 weeks, data included.

01
Send us what you have
Exports from your old software, Excel sheets or even registers. Our team moves students, parents, fee plans and pending dues across for you.

02
We set it up in your name
Classes, fee structures, report-card format, logo and colours, configured by us and checked with your office.

03
Your team goes live
Staff are trained by role, so each person learns only their part. Parents get the app with your school’s name on it.

✓ Your data stays yours, with full export any time
✓ Pending dues and history move with you
✓ Two-factor sign-in and role-based access
✓ Regular backups
✓ Every product update included

ONE LOGIN EACH. ONE STUDENT RECORD FOR ALL.

One app. Four very relieved people.

Principal & management

- Live dashboard and school health score
- Daily WhatsApp summary of the school
- Audit trail on fees, marks and permissions
- CCTV live view and custom staff roles

Accounts & office

- Fee plans, instalments and concessions
- Counter, cheque and online collection
- Automatic reminders and late-fee rules
- Tally export, P&L and balance sheet

Teachers

- Attendance on the phone in a minute
- Homework, classwork and syllabus tracking
- Marks entry with review and approval
- Question bank and paper builder

Parents

- Attendance, homework, results and fees
- Pay fees online, download receipts
- WhatsApp alerts and a 24×7 assistant
- Live bus tracking on a map

140+	Web + app	Your brand	4–6 weeks
features across 19 modules	portals for every role and an Android app	on the app, receipts and report cards	from “yes” to live, data included

THE 15-MINUTE DEMO

Shown with your own classes and fees, not a fake “ABC Public School”.

Bring your accountant and your most sceptical teacher. If MyCampusView does not make their day easier, we will happily say so.

FASTEST: REPLY TO OUR EMAIL
Just write “DEMO”
