MyCampusView

SCHOOL ERP PROPOSAL

PROPOSAL PREPARED FOR

Ratanjee Modern School

A connected digital campus for **Ratanjee Modern School** — admissions, fees, academics, parents and daily operations on one platform, with your school's name and logo.

Fees & accounts | Attendance | Exams & report cards | Parent app | Timetable | Transport GPS | WhatsApp | CCTV live view

To,
The Principal & Management
Ratanjee Modern School

Subject: Proposal to implement MyCampusView School ERP at Ratanjee Modern School

Dear Sir / Madam,

Thank you for the opportunity to present MyCampusView to Ratanjee Modern School. Most schools we meet run their day on a mix of registers, Excel sheets, separate accounting software and personal WhatsApp groups. Each works on its own, but together they cost the office hours every week, make fee follow-up slow, and leave management without one clear view of the school.

MyCampusView brings admissions, student records, attendance, academics, examinations, fees, accounts, parent communication, transport and campus operations onto a single, secure platform. Every module works from the same student record, so information is entered once and is available to the right people — the office, teachers, parents and management — instantly.

This proposal sets out the challenges we will solve, the scope of the solution for Ratanjee Modern School, the benefits for each group in your school, and a practical plan to go live within four to six weeks. Commercial terms will be shared separately in a formal quotation.

We would be glad to walk your team through a live demonstration using your own classes and fee structure.

Warm regards,
Manmohan Singh
Growth Manager, MyCampusView
contact@mycampusview.com · www.mycampusview.com

What we propose
One school ERP with web portals and a mobile app for management, office, teachers, parents and students.

What changes
Fees, attendance and results move from registers and spreadsheets to live, shared records with automatic parent updates.

How we deliver
Data migration, configuration, branding and training by our team, live in 4–6 weeks, with ongoing support.

THE CHALLENGES WE SOLVE

From registers and follow-up calls to one live system

What daily work typically looks like today, and how it changes with MyCampusView at Ratanjee Modern School.

Area	Typical situation today	With MyCampusView
Fee collection	Dues tracked in registers or sheets; reminders made by phone; receipts written by hand.	Live dues per student, automatic reminders, printed or digital receipts and online payment.
Attendance	Paper registers compiled at month end; parents learn of absence late.	Registers marked on the phone in minutes; parents alerted the same morning.
Exams & results	Marks collected in Excel from each teacher; report cards prepared by hand.	Marks entry with review and approval; report cards generated in the school's format.
Accounts	Receipts and expenses re-typed into Tally; reconciliation at year end.	Ledger, trial balance and P&L inside the ERP, with vouchers exported to Tally.
Parent communication	Notices on personal WhatsApp groups; queries reach teachers at all hours.	Official parent app, WhatsApp notifications and an assistant that answers common queries.
Timetable & cover	Timetable built by hand; substitutions arranged on the morning of the absence.	Timetable generator and a substitution board that suggests free, fairly loaded teachers.
Management view	Figures gathered from several people when needed.	Live dashboard and a daily WhatsApp summary of attendance, collection and incidents.

Less office work

Information is entered once and reused across fees, attendance, results and reports.

Faster collection

Clear dues, timely reminders and online payment help parents pay on time.

Happier parents

One trusted app for attendance, homework, results, fees and the school bus.

Clear control

Role-based access, approvals and an audit trail on every important action.

SCOPE OF THE SOLUTION

Everything your school runs, on one platform

All modules share one student record and can be switched on in phases.

Admissions & front office

- Enquiry pipeline with follow-ups and conversion reports
- Online admission form that feeds the pipeline
- Visitor log and appointments
- Gate passes and student pickup with OTP / QR check

Student information

- One record per child: profile, guardians, documents
- Branded student and staff ID cards
- Transfer certificates and year-end promotions
- Bulk import of existing student data

Attendance & leave

- Daily and period-wise registers on phone or desktop
- Instant absence alerts to parents
- Staff attendance with geofence or biometric devices
- Leave apply → approve with balances

Academics & timetable

- Automatic timetable generator with locked periods
- Teacher substitution board with fair allocation
- Homework, classwork log and syllabus tracking
- Academic calendar for staff and parents

Examinations & report cards

- Exam schedules, rooms and admit cards
- Marks entry with review and approval workflow
- Configurable grading and holistic report cards
- Certificates with QR verification

Fees & collections

- Fee structures, instalments and concessions
- Counter, cheque and online collection with receipts
- Live dues, reminders and late-fee rules
- Day-end collection report for the accountant

Accounts & Tally

- Chart of accounts and journal entries
- Trial balance, profit & loss, balance sheet
- Expense heads and expense tracking
- Export of fee and expense vouchers to Tally

Communication

- Notices by class, section or role
- Parent–teacher messaging inside the app
- SMS and WhatsApp notifications
- Daily WhatsApp summary for the principal

Parent self-service

- Parent app: attendance, fees, results, homework
- Online fee payment and receipt download
- Two-way WhatsApp assistant for common queries
- Parent queries routed to the front office

Transport

- Buses, routes, stops and student assignment
- Live bus tracking for the school and parents
- Bus-approaching alerts to parents
- Transport fees linked to the stop

Campus operations

- Library catalogue, issue / return and fines
- Inventory and school store with billing (POS)
- Purchases, stock movements and sales reports
- Events and sports management

CCTV live view

- Principal and admins watch school cameras in the app
- Optional classroom view for parents in set hours
- Video is relayed live, never recorded by us
- Simple relay app on a school PC; no router changes

Platform Web portals for management, office, accounts, teachers, parents and students · Android app · your school's name, logo and colours on login, receipts, report cards and certificates · role-based permissions · two-factor sign-in · audit trail · data export at any time.

BENEFITS FOR EVERYONE AT RATANJEE MODERN SCHOOL

Each person sees exactly what they need

Access is set by role, so teachers see their own classes, parents see only their own children, and management sees the whole school.

Management & principal

- ✓ A daily WhatsApp summary of attendance, fees and incidents
- ✓ Live dashboard and school health score
- ✓ Every action recorded in an audit trail

Accounts office

- ✓ Receipts, dues and day-end report without registers
- ✓ Concessions and late fines applied by rule, not by hand
- ✓ Vouchers ready for Tally; no re-typing

Teachers

- ✓ Attendance and marks from the phone in minutes
- ✓ Timetable and substitutions always up to date
- ✓ Question bank and paper builder with optional AI help

Front office

- ✓ Enquiries and visitors captured in one place
- ✓ Secure student pickup with gate passes
- ✓ Parent queries answered from one inbox

Parents

- ✓ Attendance, homework, results and fees on one app
- ✓ Pay fees online and download receipts
- ✓ Live bus location and timely alerts

Students

- ✓ Homework, timetable and admit cards online
- ✓ Online assessments and instant feedback
- ✓ Report cards and certificates in their portal

“One record for every child, entered once and trusted by everyone — from the fee counter to the principal’s phone.”

AI that assists, never decides

- → AI drafts questions, feedback and messages for staff to review
- → Nothing is sent to parents or posted to accounts without approval
- → Teachers keep the final say on marks and evaluation

Built for Indian schools

- → Fee heads, instalments, concessions and late fines as schools use them
- → Report-card formats, TCs and certificates in your school’s style
- → Tally export for your accountant or CA

HOW WE WILL IMPLEMENT

A guided go-live, handled by our team

A typical plan for Ratanjee Modern School. Dates are fixed with your team at kick-off; we prefer to go live at the start of a term or month.

Week 1	**Discovery & setup**	Kick-off with management, review of current registers and fee structure, school account and branding set up.
Weeks 1–2	**Data migration**	Students, parents, staff, classes, fee structures and opening dues imported from your existing sheets or software.
Weeks 2–3	**Configuration**	Fee plans and concessions, timetable, exam and report-card templates, roles and permissions, notifications.
Weeks 3–4	**Training**	Hands-on sessions for the office, accounts, teachers and front office, followed by a short parallel run.
Weeks 4–6	**Go-live & parents**	Parent app onboarding, first fee cycle and attendance on the system, close support during the first weeks.

What MyCampusView provides

- → A dedicated onboarding contact for Ratanjee Modern School
- → Import of existing student, staff and fee data
- → Configuration of fees, timetable, exams and roles
- → School branding on app, receipts and documents
- → Role-wise training and simple user guides
- → Ongoing support through the in-app help desk and email

What we need from Ratanjee Modern School

- → One coordinator from the office for the project
- → Student, parent and staff lists in any format
- → Current fee structure, concessions and opening dues
- → Report-card format and class / subject list
- → School logo and preferred colours
- → Time for staff training sessions

Data security & ownership

- → Your school's data is kept separate from every other school and remains the property of Ratanjee Modern School
- → Encrypted connections, two-factor sign-in, role-based access and a full audit trail
- → Regular backups, and a complete data export available whenever the school asks

WHY MYCAMPUSVIEW

A partner for your school's digital journey

One connected system
No separate apps for fees, attendance and parents; one record, one login.

Your brand
The school's name and logo on the app, receipts, report cards and certificates.

Quick to adopt
Simple screens for office staff and teachers, with hands-on training for every role.

Grows with you
Start with fees and attendance; add CCTV, store, transport and more later.

Always improving
Regular updates included, based on what schools ask for.

Responsive support
An in-app help desk and a team that knows schools, not a call centre.

Proposed next steps

1. **Live demo** for management and the office, using Ratanjee Modern School's classes and fees.
2. **Scope confirmation** — modules for phase one and the go-live date.
3. **Formal quotation** and agreement shared by MyCampusView.
4. **Kick-off** — data collection and onboarding begin.

Contact us

→ contact@mycampusview.com
→ www.mycampusview.com
→ Reference MCV/P/2026-27/103
→ Proposal valid until 13 October 2026

This proposal describes scope and approach only. Pricing, payment terms, optional hardware (biometric devices, GPS trackers, cameras) and third-party charges (SMS, WhatsApp, payment gateway) are covered in the formal quotation and agreement.
