MYCAMPUSVIEW ACADEMY · AI FOR YOUNG BUILDERS

Project planner

Plan, build, test, improve, present

Name: _____ Class: _____

1. The problem

Who will my AI help, and how?

2. My labels

Drawings or camera? Why?

3. Data plan

How many examples of each label, and what variety?

4. Test results

Round	Accuracy	What went wrong	What I changed
1			
2			
3			

5. Fair and safe check

- ☐ Could it be unfair to anyone? How did I check?
- ☐ Does it use anyone's personal details or photos? (It should not.)
- ☐ What should a person do when it is not sure?

6. My 1-minute presentation

What it does · how I trained it · how good it is · one thing I would improve
